points

REVIEW

"Soft, velvety, approachable and powerful. Remarkable acidity, with intense, searching tannins and driving salinity. A deeply vinous wine. The oak is present on the nose and palate for now but it should integrate. It's long and juicy. The alcohol feels well-balanced, and this should age with real interest. 1ha plot of pre-phyloxera vines near the village of Gigondas. All aged in demi-muids, half new, half one-year-old."

ABOUT THE WINERY

With roots in the wine industry tracing back to 1909 with the purchase of the famed Château de Beaucastel, Famille Perrin is the leading organic wine grower of the Southern Rhône Valley, where they occupy the region's best terroirs. Today the 4th generation, Jean-Pierre and François, and 5th generation, Marc, Pierre, Thomas, Cécile, Charles, Matthieu and César, work hand in hand, overseeing every aspect of the business: from the vineyard to the cellar, marketing to sales. Famille Perrin's range of wines offers the richness and diversity of the Southern Rhône Valley. The family has vineyards across the Southern Rhône Valley including the towns of Orange, Cairanne, Jonquières, Tulette, Visan; and the appellations of St Gervais, Domaine de la Bicarell, and Vinsobres. Organic viticulture has been practiced by the family since 1950 and biodynamic practices were introduced in 1974. Masters in the art of blending, the Famille Perrin cares for each of the unique brands it produces with the same expertise and same passion, bringing out the true character of each terroir and offering the best wines for different occasion and at different price points.
