GIGONDAS L'ARGNÉE VIEILLES VIGNES

2023

SCORE

95

points

REVIEW

"The 2023 Gigondas L'Argnée, sourced from less than two hectares of pre-phylloxera vines, is a pure expression of Grenache Noir, with 60% of the vineyard ungrafted and matured in 50% new foudres. Evoking aromas of rose petals, dark berries and flowers mingled with dark cherries, it's medium- to full-bodied, enveloping and sappy with a satiny, layered core of fruit, concluding with a long, ethereal and racy finish. This is a terrific Grenache."

ABOUT THE WINERY

With roots in the wine industry tracing back to 1909 with the purchase of the famed Château de Beaucastel, Famille Perrin is the leading organic wine grower of the Southern Rhône Valley, where they occupy the region's best terroirs. Today the 4th generation, Jean-Pierre and François, and 5th generation, Marc, Pierre, Thomas, Cécile, Charles, Matthieu and César, work hand in hand, overseeing every aspect of the business: from the vineyard to the cellar, marketing to sales. Famille Perrin's range of wines offers the richness and diversity of the Southern Rhône Valley. The family has vineyards across the Southern Rhône Valley including the towns of Orange, Cairanne, Jonquières, Tulette, Visan; and the appellations of Saint-Gervais and Vinsobres as well as the estate Domaine de la Biscarelle. Organic viticulture has been practiced by the family since 1950 and biodynamic practices were introduced in 1974. Masters in the art of blending, the Famille Perrin cares for each of the unique brands it produces with the same expertise and same passion, bringing out the true character of each terroir and offering the best wines for different occasion and at different price points.
